ANKAJ RANA

Frontend Developer · React.js / Next.js · AI-Assisted Development

+91 97793 32204 | ranaanku501@gmail.com | LinkedIn | Mohali, Punjab, India

PROFESSIONAL SUMMARY

Frontend Developer with **8+ years** of experience building responsive, production-grade web applications with React.js, Next.js, TypeScript and modern CSS frameworks. Currently building **ItsBot**, a multi-vertical AI voice agent and automation platform, and **Todemy**, a children's educational app platform. Strong track record delivering complex UI — SaaS dashboards, social feeds, marketplaces, admin panels and Web3/NFT platforms — from design handoff to production. Experienced in REST API integration, scalable state management with Redux Toolkit and Context API, and cross-browser responsive delivery. Actively use AI-assisted development tools (**Cursor, Claude, ChatGPT, GitHub Copilot**) to accelerate delivery and raise code quality. Comfortable owning features end-to-end and mentoring junior developers.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux & Redux Toolkit, Context API, React Hooks, jQuery

Styling & UI: Tailwind CSS, Bootstrap, Material UI, SCSS, Responsive Design, Media Queries, Figma to Code

APIs & Data: REST APIs, Axios, JSON, Web3 / NFT integrations, Dynamic Charts & Data Visualisation

AI Tools & Workflow: Cursor, Claude, ChatGPT, GitHub Copilot, Prompt Engineering, AI-assisted debugging, code review & test generation

Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Postman, Jira, Adobe Photoshop

Practices: Component-driven architecture, Reusable design systems, Cross-browser compatibility, Web accessibility, Agile / Scrum, Code reviews

PROFESSIONAL EXPERIENCE

Frontend Developer — Sep 2024 – Present

Eminence Technology · Mohali, India · On-site

- **ItsBot (itsbot.ai) — AI voice agent & automation platform:** build and maintain the multi-vertical **Next.js** frontend serving dental, home services, cosmetics, hospitality and landscaping verticals from a single codebase with per-vertical theming, content and routing.
- Developed the agent configuration and call-management interface — live call logs, transcripts, post-call data-collection fields and transfer-to-human controls — integrating **ElevenLabs Conversational AI** and **Twilio** APIs.
- Rebuilt the **itsbot.ai** marketing site end-to-end across all landing-page sections with responsive, SEO-optimised Next.js pages.
- **Todemy — children's educational app platform:** built the parent- and child-facing UI for a 365-day curriculum covering ages 2–7, including activity-library browsing, category/subcategory navigation, session briefs and progress views.
- Designed age-appropriate, accessible interfaces for young users — large touch targets, high-contrast visuals and animation-led feedback — while keeping parent-side screens data-dense and scannable.
- Use **AI-assisted development tools (Cursor, Claude, ChatGPT, GitHub Copilot)** for component scaffolding, refactoring legacy code, writing tests and reviewing pull requests, noticeably reducing feature turnaround time.
- Optimised performance via code-splitting, lazy loading and asset optimisation; collaborate with designers, backend engineers and QA in Agile sprints and mentor junior developers on React best practices.

Frontend Developer — Jul 2022 – Jan 2024

SoftRadix Technologies Pvt. Ltd. · Mohali, Punjab, India · On-site

- Developed a **social marketplace platform** in React.js where users create accounts, set up marketplace profiles, publish feeds and share content across their network.
- Built a complete **news feed module** with multi-format media upload, post editing, and like / unlike / repost / comment functionality with full CRUD support.
- Implemented **dynamic charts and data visualisations** to surface user analytics and connection insights, replacing static reporting screens.

- Delivered "who viewed your profile" and matching-connections features, improving user engagement and profile discoverability.
- Consumed REST APIs via **Axios** with centralised error handling, and structured global state using **Redux Toolkit**.
- Ensured cross-browser compatibility across Chrome, Firefox, Safari and Edge, and full responsiveness on mobile and tablet.

Web Designer / UI Developer **Mar 2020 – Jul 2022**
IT Waves · Chandigarh, India

- Delivered frontend for a range of **E-Commerce and NFT / Web3 platforms**, including **Everlens, Lyber and NFTyit**.
- Built multiple **admin panels from scratch** — dashboards, data tables, filters, role-based views and reporting screens.
- Created reusable UI components and shared style systems that cut build time on subsequent projects.
- Worked directly with clients and designers to translate requirements into responsive, production-ready interfaces.

Web Designer **Jan 2019 – Mar 2020**
Code Brew Labs · Chandigarh, India

- Designed and developed the app and web UI for **BharatPe**, a leading Indian merchant payments platform (client engagement, Delhi).
- Implemented interactive animations and micro-interactions using JavaScript and CSS to improve perceived performance and polish.
- Led and mentored a **team of 3** on markup standards, responsive layout and design consistency.

UI Designer **Oct 2017 – Dec 2018**
eWeb A1Professionals Pvt. Ltd. · India · On-site

- Built E-Commerce and service websites from scratch using HTML5, CSS3, JavaScript, jQuery and Bootstrap.
- Converted PSD and design mockups into responsive, cross-browser compatible web pages.

KEY PROJECTS

ItsBot — AI voice agent & automation platform · itsbot.ai
Stack: Next.js, React.js, TypeScript, Tailwind CSS, REST APIs, ElevenLabs, Twilio

- Multi-vertical SaaS platform delivering AI voice agents for dental, home services, cosmetics, hospitality and landscaping businesses.
- Built the vertical-aware frontend architecture, agent configuration dashboard, call log and transcript views, and the full public marketing site.

Todemy — Children's educational app platform
Stack: React.js, Next.js, Tailwind CSS, REST APIs

- Learning platform for children aged 2–7 built around a 365-day activity curriculum spanning academics, feelings, kindness, confidence and self-care.
- Delivered the activity library, category navigation, game modules and parent-facing session and progress screens.

BharatPe — Merchant payments application · bharatpe.com
Stack: React.js, HTML5, CSS3, Bootstrap, JavaScript

- Owned the end-to-end UI for the payments app and marketing site, including the full responsive layer.
- Built JavaScript and CSS animation sequences across key user journeys; managed and trained a 3-person team.

NFT & Web3 Platforms — Everlens, Lyber, NFTyit

- Developed marketplace and minting interfaces with wallet-connection flows, live listings and responsive gallery views.
- Links: everlens.io · lyber.com · nftyit.com

Chronifi & Grintafy — Web platforms

- Delivered responsive frontends and admin dashboards. Links: chronifi.com · grintafy.com

EDUCATION

Bachelor of Computer Applications (BCA) — 68% **2016**
S.V.S.D.P.G. College, Bhatoli · Una, Himachal Pradesh

Senior Secondary (12th) **2013**
Mount Shivalik Sr. Sec. School, Gaddiwal · Punjab

ACHIEVEMENTS

- **Punctual Employee Award** — recognised for consistent delivery and reliability.
- **Energetic Employee Award** — recognised for proactive contribution and team energy.
